**DIRECTORATE OF QUALITY, SAFETY AND ORGANIC AGRICULTURE
ANNUAL ORGANIC AGRICULTURE REPORT – YEAR 2024**

- I. Regarding regulations on organic production in Paraguay, there were no changes or additions in 2024.
- II. The organic production area amounts to 54,391.86 hectares, with 55 registered operating companies to date. Of these, 18% are producers, collectors, processors, and marketers; 17% are producers, processors, and marketers; 9% are collectors, processors, and marketers; 7% are producers of raw materials, which they market to industries; and 4% are dedicated to the collection and sale of products, either for processing or export. All operating companies are accredited by the Paraguayan accreditation body. All operating companies are audited by the certifying agencies, which audit 10% of the produce from the farms.
- III. The report highlights the diversity of countries that purchase Paraguayan organic certified plant-based products, as well as the domestic market, around 3,965 farms are directly involved in this process. The production areas are the Central, Cordillera, Guairá, San Pedro, Canindeyú, Caaguazú, Paraguari, Alto Paraná, Itapúa, and Misiones departments, and in the Chaco the department of Boquerón. It should be noted that the main markets are the European Union, the United States, Japan, and, to a lesser extent, other countries.

Our main trade of organic production are sugarcane derivatives (sugar, molasses), coffee, soy, yerba mate, and medicinal plants, among others.

- IV. Exports made under the memorandum of understanding with Taiwan (MOU) of sugar by the companies Hibernia Misiones (52 tons), Paraguayan sugar company (AZPA) (5 tons), and 25 tons by Oficina Técnica Industrial SA (OTISA)
